

Cookie Recipe Bailey

6 dozen Cookies

3/4 cup butter

1/2 cup sugar

2 eggs

1/2 cup cream

1 tsp vanilla

1 cup flour

3 cups oatmeal

2 tsp baking powder

1 tsp salt

1 tsp cinnamon

1 cup chocolate chips

6 dozen	double	
+ 6 dozen	recipe	
<u>12 dozen</u>	half	add
+ 3 dozen	recipe	
<u>15 dozen</u>		

I need to find fractions for this recipe doubled and then half of it. When I get the answers to each recipe then I need to add them to get my answer.

recipe for 12 dozen

$3/4 \text{ cup butter} \times 2 = 1\frac{1}{2} \text{ cup butter}$

$1/2 \text{ cup sugar} \times 2 = 1 \text{ cup sugar}$

$2 \text{ eggs} \times 2 = 4 \text{ eggs}$

$1/2 \text{ cup cream} \times 2 = 1 \text{ cup cream}$

$1 \text{ tsp vanilla} \times 2 = 2 \text{ tsp vanilla}$

$1 \text{ cup flour} \times 2 = 2 \text{ cup flour}$

$3 \text{ cups oatmeal} \times 2 = 6 \text{ cups oatmeal}$

$2 \text{ tsp baking powder} \times 2 = 4 \text{ tsp baking powder}$

$1 \text{ tsp salt} \times 2 = 2 \text{ tsp salt}$

$1 \text{ tsp cinnamon} \times 2 = 2 \text{ tsp cinnamon}$

$1 \text{ cup chocolate chips} \times 2 = 2 \text{ cup chocolate chips}$

recipe for 3 dozen

$$3/4 \text{ cup butter} \div 2 = 3/8 \text{ cup butter}$$

$$1/2 \text{ cup sugar} \div 2 = 1/4 \text{ cup sugar}$$

$$2 \text{ eggs} \div 2 = 1 \text{ egg}$$

$$1/2 \text{ cup cream} \div 2 = 1/4 \text{ cup cream}$$

$$1 \text{ tsp vanilla} \div 2 = 1/2 \text{ tsp vanilla}$$

$$1 \text{ cup flour} \div 2 = 1/2 \text{ cup flour}$$

$$3 \text{ cups oatmeal} \div 2 = 1 1/2 \text{ cups oatmeal}$$

$$2 \text{ tsp baking powder} \div 2 = 1 \text{ tsp baking powder}$$

$$1 \text{ tsp salt} \div 2 = 1/2 \text{ tsp salt}$$

$$1 \text{ tsp cinnamon} \div 2 = 1/2 \text{ tsp cinnamon}$$

$$1 \text{ cup chocolate chips} \div 2 = 1/2 \text{ cup chocolate chips}$$

Now I have to add my answers.

$$3/8 \text{ cup butter} + 1 1/2 = 1 7/8 \text{ cups butter}$$

$$1/4 \text{ cup sugar} + 1 = 1 1/4 \text{ cup sugar}$$

$$1 \text{ egg} + 4 = 5 \text{ eggs}$$

$$1/4 \text{ cup cream} + 1 = 1 1/4 \text{ cup cream}$$

$$1/2 \text{ tsp vanilla} + 2 = 2 1/2 \text{ tsp vanilla}$$

$$1/2 \text{ cup flour} + 2 = 2 1/2 \text{ cup flour}$$

$$1 1/2 \text{ cup oatmeal} + 6 = 7 1/2 \text{ cup oatmeal}$$

$$1 \text{ tsp baking powder} + 4 = 5 \text{ tsp baking powder}$$

$$1/2 \text{ tsp salt} + 2 = 2 1/2 \text{ tsp salt}$$

$$1/2 \text{ tsp cinnamon} + 2 = 2 1/2 \text{ tsp cinnamon}$$

$$1/2 \text{ cup chocolate chips} + 2 = 2 1/2 \text{ cup chocolate chips}$$
